

AND OTHER PESTS

Hello? Why, yes. I can create a report of efficiencies for you...
Yes. Uh huh. Send me your files and I'll draw up a chart by Friday. Ok!

Excuse me, but these graphs are not graphic enough. I need you to revise and review!

I'm sorry you feel that way, but these graphs are entirely based on your figures. Do you want additional analysis? Alright.

What's THAT?
It looks really good, too!
A bound report for that nee-kat who doesn't understand graphs...
Ugh. I regret taking this project.

Oh, uh, that market called and said my report was wrong. It isn't, but he doesn't understand statistics... ugh!
I am so angry I could just SPIT!
What's wrong?

well, I think HE'S an IDIOT!

My stomach hurts. I wrote him a very nice e-mail explaining how to assess and apply my analysis, but you're just waste a retard...

I'd like to give him a REFUP, allright!
TAKE THAT, POW! POW!

OH, you are the best, Bdp. I think you and I better just ignore the urge to put him in his place, however tempting! He is just a stupid rat, after all.
